

IN THE SPECIFICATION

Please amend the specification as follows.

Please cancel paragraphs [0038] and [0071].

Please replace paragraph [0039] with the following rewritten paragraph.

[0039] Figure 19 shows the shape of a sixth ~~seventh~~ alternative movable electrode of a pair of electrodes of the acceleration sensor according to the present invention,

Please replace paragraph [0072] with the following rewritten paragraph.

[0072] Figure 19 shows the shape of a sixth ~~seventh~~ alternative movable electrode of a pair of electrodes of the acceleration sensor according to the present invention. The movable electrode of the pair of electrodes starts out at a certain thickness at the straight line connecting the support points of the movable electrode, and the active dimension of the electrode increases evenly and essentially, going in the direction of the positive direction vector of the movable electrode.
